

A

Calibration nodes: TimeTree range vs calibrated age (64 nodes)

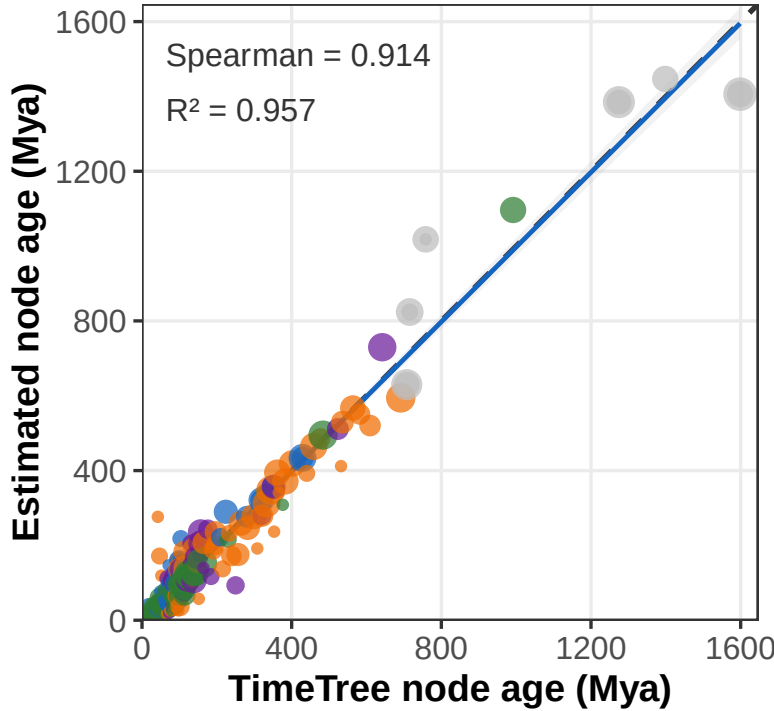

Red diamond = TimeTree median | red line = TimeTree range (constraint for most nodes) | black circle = calibrated age | grey line + * = literature (not TimeTree) | y labels by clade

B

chronos correlated

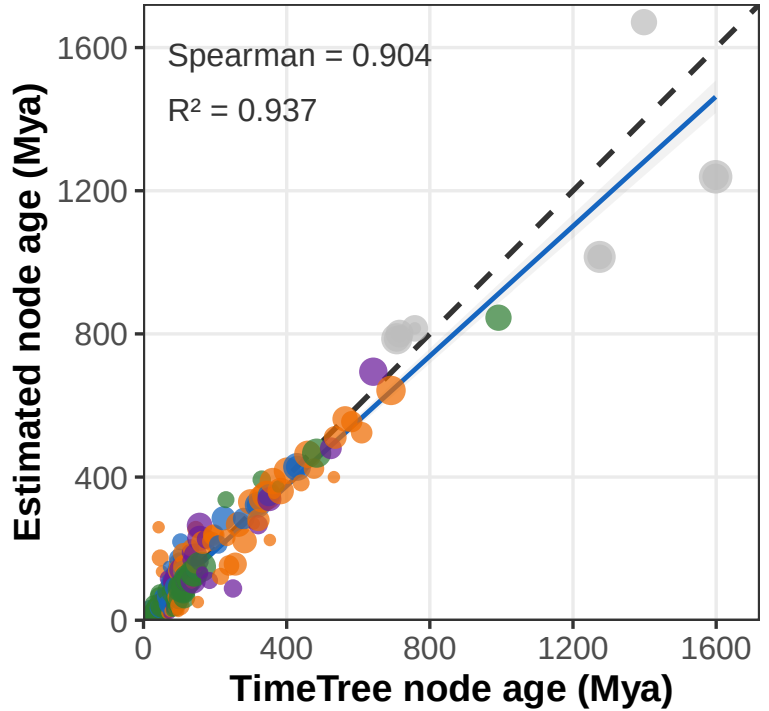

213 node-age comparisons; dashed = 1:1 line

C

chronos relaxed

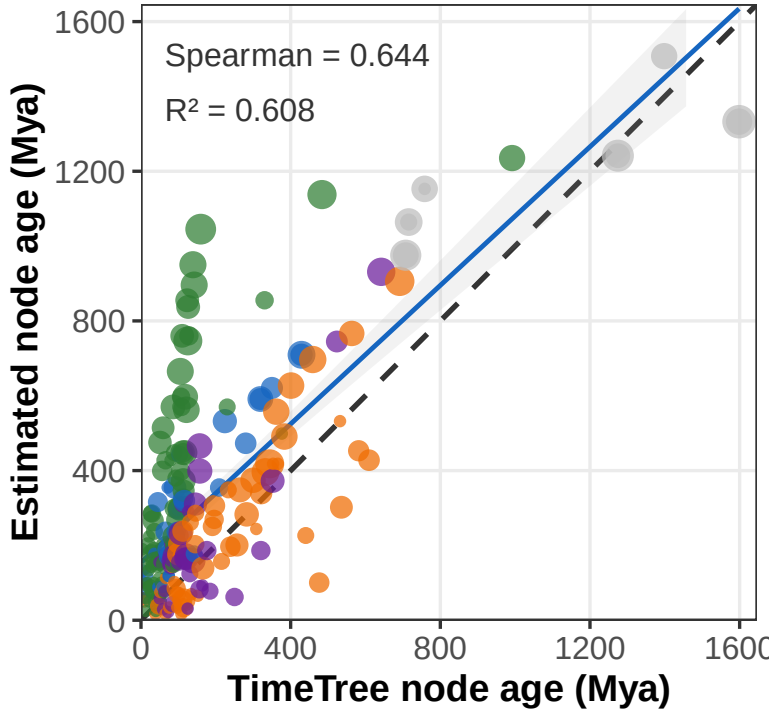

213 node-age comparisons; dashed = 1:1 line

D

rate-smoothed (root only)

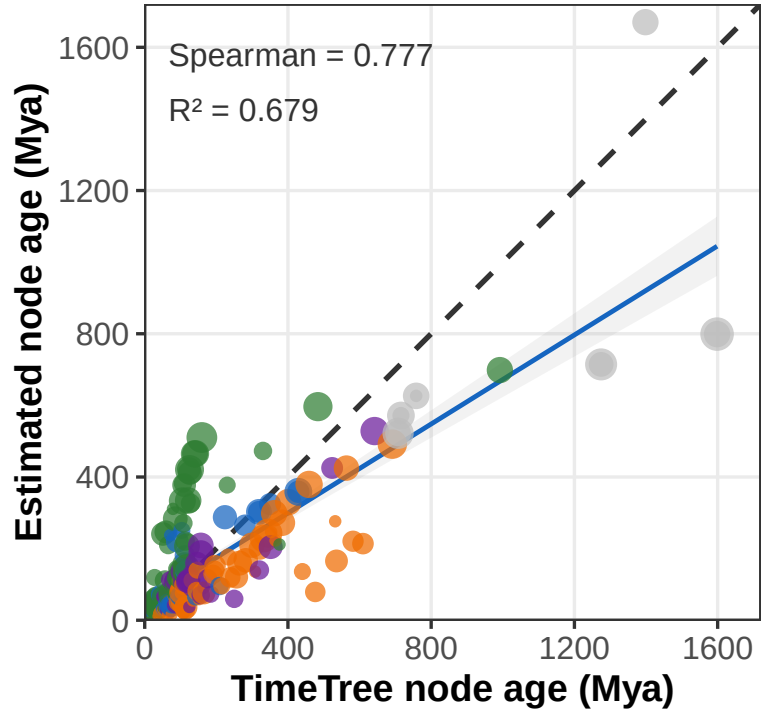

213 node-age comparisons; dashed = 1:1 line

E

uncalibrated (no calibration)

213 node-age comparisons; dashed = 1:1 line
