

A

Calibration nodes: TimeTree range vs calibrated age (62 nodes)

Red diamond = TimeTree median | red line = TimeTree range (constraint for most nodes) | black circle = calibrated age | y labels by clade

B

62 calibrations (correlated)

213 node–age comparisons; dashed = 1:1 line

C

62 calibrations (relaxed)

213 node–age comparisons; dashed = 1:1 line

D

root–only (correlated)

213 node–age comparisons; dashed = 1:1 line

E

root–only (relaxed)

213 node–age comparisons; dashed = 1:1 line
